

# REDWOOD

LAB SERVICES, LLC

Welcome to Redwood Lab Services,

Here at Redwood we deploy cutting edge methodologies that allow for the quickest turnaround times and most accurate test results available. Our robust portfolio of offerings will allow every office to utilize our services as a go to guide in the diagnostic industry. Our laboratory staff is highly trained in every aspect of testing to ensure each staff is provided the full picture of laboratory operation. This is the foundational strength for Redwood to provide the utmost in customer service for every account.

Our usage of liquid chromatography tandem mass spectrometry (LC-MS/MS) for quantitative testing allows for better detection of specific drugs and metabolites. We strive to provide the highest quality of specimen testing for our prescription drug monitoring program and the individual physicians that rely on those answers.

We have created Blood +Wellness Panels with physicians for physicians to provide the most comprehensive offerings in our industry. That means you can rely on Redwood to provide actionable answers for all of your patients' needs. In addition, our Allergy Testing is the best product for patients of all ages with the least amount of stress in sample collection.

We are a CLIA certified and COLA accredited laboratory with the authority to operate nationwide. Being an accredited laboratory ensures that we have to adhere to all state and federal laws, regulations, and guidelines.

We look forward to servicing all of your diagnostic needs.

Best regards,

Chad Harper  
Chief Executive Officer
